

**CUSTOMER SERVICE NOTICE FROM EFTEL GROUP  
(Eftel Ltd, aaNET Pty Ltd, ClubTelco Pty Ltd, Engin Pty Ltd)**

**Extreme Weather events impact service in Gulf Country, Peninsula, North Tropical Coast and Tablelands, Northern Goldfields and Upper Flinders and North West Districts.**

As previously notified on the 24<sup>th</sup> January 2013, the Eftel Group (Eftel Ltd, aaNET Pty Ltd, ClubTelco Pty Ltd, Engin Pty Ltd) is currently working to manage the impact on our customers that occurred as a result of a series of extreme weather events in the Gulf Country, Peninsula, North Tropical Coast and Tablelands, Northern Goldfields and Upper Flinders and North West region of Queensland that began on or about Friday 18th January 2013 through to 21<sup>st</sup> January 2013. The impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to the 1<sup>st</sup> March 2013.

Thunderstorms, heavy rain and flash flooding have caused notable damage to the network, rendering some services faulty, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>

A customer service notice regarding this service disruption will also be published in the Brisbane Courier Mail on the 13<sup>th</sup> February 2013.

The Eftel Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration.

Because these events are outside the Eftel Group's control, Eftel is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **21<sup>st</sup> January 2013 to 1<sup>st</sup> March 2013** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.

Approximately 3,000 services are currently affected as part of this outage and phone numbers in the following ranges may have been affected:
