Staff Redeployment impact service in Roper-McArthur, Victoria River, Barkly and Alice Springs Districts of the Northern Territory

The Eftel Group (Eftel Ltd, aaNET Pty Ltd, ClubTelco Pty Ltd, Engin Pty Ltd) is currently working to manage the impact on our customers that occurred as a result of a series of extreme weather events throughout widespread areas of Queensland and New South Wales on or about 23rd January to 4th March 2013. Due to the extent and severity of these ongoing extreme weather events, Telstra is redeploying a large number of staff from across Australia to the affected regions. As a result, there will be delays to normal installation and repair activities in the Roper-McArthur, Victoria River, Barkly and Alice Springs regions of the Northern Territory, as staff from this region are redeployed.

For a fuller explanation of the circumstances that lead to the installation and repair delays refer to the Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>

A customer service notice regarding this service disruption will also be published in the Northern Territory News on the 19th March 2013.

The Eftel Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration.

Because these events are outside the Eftel Group's control, Eftel is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **8th March to 29th March 2013** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.
